GIFT OBASI

UI/UX Designer (Nigeria)

UI/UX Designer with 3+ years of experience applying user research, user interaction design and visual systems to solve real-world product challenges. Proficient in Figma and modern no-code tools including Webflow, Framer, and Wix Studio. Known for transforming complex requirements into scalable, user-friendly experiences that support business objectives, improve usability and enhance product adoption.

USER EXPERIENCE DESIGN WORK EXPERIENCE

UI/UX (Web) Designer — TFB Studios AI
Jun 2024 – Sep 2025 | London, United Kingdom

- Collaborated directly with the CEO to translate early-stage product concepts into mobile-first, user-centered designs for an AI-powered fashion platform.
- Led the redesign of key mobile web flows, improving usability and user engagement across garment and fabric production features.
- Established and maintained a consistent brand design language across prototypes and live interfaces, ensuring cohesive user experiences.
- Designed and presented interactive, high-fidelity prototypes to support product demos, align stakeholders, and accelerate decision-making.
- Partnered cross-functionally with leadership and product stakeholders to ensure design solutions balanced user needs, feasibility, and business goals.

UI/UX Design Intern — Branded Architects
Aug 2024 – Sep 2024 | Buea, Southwest, Cameroon

- Conducted UX research through user interviews and surveys to identify pain points and behavioural patterns that informed design decisions.
- Created wireframes, user flows, and journey maps to visualize product structure and improve stakeholder alignment.
- Built and maintained a design system, improving visual consistency and streamlining developer hand-off.
- Applied information architecture principles to design intuitive, user-centred navigation experiences.
- Collaborated closely with senior designers and developers, contributing to smooth project delivery and stronger team communication.

Product Design Intern — The Rootshive
Oct 2023 – Mar 2024 | Lagos, Nigeria

- Designed intuitive and engaging product interfaces by translating user research insights into actionable design solutions.
- Worked closely with the Lead Designer using wireframes and high-fidelity mockups to align design direction and reduce iteration cycles.
- Created functional, visually appealing UI components that adhered to accessibility and usability best practices.
- Adapted quickly to evolving requirements, delivering timely design iterations in a fast-paced environment.
- Contributed to improved product usability and functionality through research-driven, solution-oriented design thinking.
