Why PawLenx?

I am excited about PawLenx because I love working with technology that helps pets and their owners. I believe my skills can contribute to your mission.

Unique Value & Contribution

I bring strong technical skills and experience in blockchain technology, which can help innovate your services. I am a quick learner and a team player.

Pet Experience

I have always loved pets and have experience caring for them. I believe this personal connection will help me understand your customers better.

& Resume attached separately in applicant folder.
